

SMART ACCESS

Smart Access

Automated Access Management

People And Vehicle Access Control

Instant Activation/Deactivation Using Our Application

In this age of increasing security needs - it is important to carefully control the movement and presence of both people and vehicles across cities, campuses and buildings. Our Smart Access control offering has matured with knowledge and experience over the past many years in the area of secure, stringent solutions to manage these aspects.

Smart Access Allows

Both People And Vehicles To Be Controlled And Managed.

The technology leverages sensors and is designed as a future-proof platform with its adaptable architecture & remarkable up-time. Our smart access solutions provide a powerful amalgamation of real-time services and support at your finger tips.

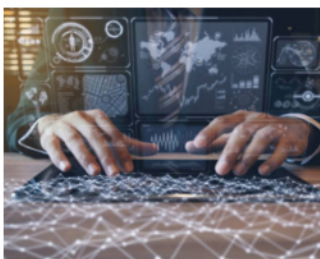

Automated Access Management

Our insta-access software solution allows easy to use features to enable/modify or disable access to pre-designated areas. Clubbed with essential elements such as barriers, message displays and signal lights - we are able to provide end-to-end solutions for access management.

People And Vehicle Access Control

We leverage biometrics, facial and RFID for effective people access control Integration with OEM based turnstiles or doors allows us to secure rooms, buildings and even complexes so that you can effectively track and manage entry, movement and exit of people - whether they are residents, employees, vendors, visitors or contractors. We leverage RFID and LPR to effectively monitor access of vehicles to areas as well. Our insta-access software solution allows easy to use features to enable/modify or disable access to pre-designated areas. Clubbed with essential elements such as barriers, message displays and signal lights - we are able to provide end-to-end solutions for vehicle access management.

Instant Activation/Deactivation

Our Smart Access solutions are easy to install, use and even deactivate when not needed. We at Smart IoT constantly assist our clients and customers to live life hassle-free, backed by our efficient technology.

SIOT Understands

That Every Smart Initiative Has Its Own Design
& We Have Modularized Our Solutions To Suit The
Needs Of Our Clients

Robust Product Design Derived
From Years Of Experience

Integration Of Sensors And
Software To Work Seamlessly

Modular Apis For Easy
Integration

Wide Variety Of Oems
For Selecting Components
& Sensors Based On Needs

Manpower Services Across
India To Provide Ability To
Implement And Maintain

Process-Oriented Approach
To Ensure Delivery Of Quality
Products

Our Products And Solution

About Us

SIOT Has Been Conceptualized And
Is Run By Industry Experts

With the advent of "Internet of Things" and the ability of sensors to talk to each other as well as integrate with actuators to implement - our expertise lies in formulating custom-solutions for the infrastructure industry - be it smart cities, smart campuses, smart buildings or smart roads & highways!

SIOT is based out of Bangalore, India - the hub of IT in India. Our natural inclination towards use of technology to bring efficiency in businesses is enabled by the vibrant tech community that we are in the midst of.
