SMART SECURITY

Smart Security

| Intelligent Cameras For Surveillance | Smart Security For Perimeters | Under Vehicle Scanners At Entry/Exit Gates | License Plate Recognition | Incident Alert Systems |

Security and surveillance have become essential to our daily installations now. With growing threats and increasing crime rates - it is important to secure perimeters more safely than ever before. Based on the business needs and risk-profile, we are able to provide accurate and high quality cameras programmed to your specific needs for cctv security and surveillance. We also have a host of other accessories that make your space – safer!

While a variety of OEMs (original equipment manufacturers) are manufacturing CCTV cameras - there is a need to get smart about the way security is managed. And we at Smart IoT, just do that.

CCTV

Define your cctv needs or work with us to do so. Identify your preferred hardware and vendors or let us do the entire work for you. We provide unbiased access to all options based on your need and design, implement, maintain and support the same. We always recommend the right devices as per the need of our clients. Managing services on expensive and complex hardware procured and also ensure an optimal ROI on your security investment.

Under Vehicle Scanners

A careful integration and programming of specific sensors. And cameras allows you to secure your entry/exit gates so that vehicles entering the complex or community can be monitored for safety. The system sends alerts to other sensors such as barriers, signal lights or message sign boards such that the entire operation is automated. The intelligence built in our platform is capable of defining business rules that allow automated entry for safe vehicles without manual intervention! That's artificial intelligence at work now

- Entry Gate Under Vehicle Scanners
- Integrated to centralized security systems
- Works in all-weather conditions
- Integrated entry control actuators

SIOT Understands

That Every Smart Initiative Has Its Own Design & We Have Modularized Our Solutions To Suit The Needs Of Our Clients

Robust Product Design Derived From Years Of Experience

Integration Of Sensors And Software To Work Seamlessly

Modular Apis For Easy Integration

Wide Variety Of Oems For Selecting Components & Sensors Based On Needs

Manpower Services Across India To Provide Ability To Implement And Maintain

Process-Oriented Approach To Ensure Delivery Of Quality Products

Our Products And Solution

Smart Highway

Smart Security

Smart Access

Smart Poles

Smart Energy

Our Services   • Consulting   • Software and O&M

About Us

SIOT Has Been Conceptualized And Is Run By Industry Experts

With the advent of "Internet of Things" and the ability of sensors to talk to each other as well as integrate with actuators to implement - our expertise lies in formulating custom-solutions for the infrastructure industry - be it smart cities, smart campuses, smart buildings or smart roads & highways!

SIOT is based out of Bangalore, India - the hub of IT in India. Our natural inclination towards use of technology to bring efficiency in businesses is enabled by the vibrant tech community that we are in the midst of.
